35. One offender was surrendered to the British Government during the year under report for trial and six were received.

Prisons.

36. Besides the Central Jail at Miraj, which is in charge of the Medical Officer Miraj, there are two sub-jails one at Laxmeshwar and the other at Modnimb. They are sufficient for requirements of the State. The details under this head will be found in Appeudix XIII.

37. Out of the 67 prisoners 9 suffered from Ague and other small diseases. The health of the rest was good. One prisoner was sentenced under Act II of 1874 (Bombay) for misconduct. The conduct of the rest was good.

Registration.

38. Appendices XIV and XV give detailed particulars of the Registration Department.

Municipal Administration.

39. Appendix XVI shows the receipts and expenditure of the five Municipalities in the State. The Miraj Municipality was being managed as a State department until the month of January last. This arrangement was rather forced upon the State owing to the resolution passed by the general meeting of the members of the then Municipality in the year 1898. The members at that time were nominated by the State. But

owing to the lack of the funds and other similar reasons they unanimously arrived at a decision in which they asked the State to take over the management of the municipality. The State therefore was obliged to manage it in its own way. This was the State of the things until last year. But owing to the changed conditions in the surrounding British Districts Miraj people too thought of having some hand in their municipal affairs. They therefore requested the Chief to entrust the municipality to themselves. The Chief was not at all averse to do so. As soon as the request was made, he most willingly granted the same. Act III of 1901 was therefore introduced and the municipality was entrusted to the care of the citizens themselves under that Act. But there were several difficulties in the way of granting the full measure of rights all at once under that Act. The powers given under the new arrangements are not as full as they ought to be. But the existing arrangements are to remain in force only for 3 years, at the end of which period, it is hoped, the citizens will get the full measure of rights under the Act.

The house tax was enhenced before the introduction of the new change mentioned in the above paragraph which appears to have improved the financial condion of the municipality to some extent and it is hoped the members nominated by the State for three years, as a temperary measure will manage the municipal affairs to the entire satisfaction of the Chief.

CHAPTER IV.

Weather and crops.

40. Appendix XVII gives the figures of rain-fall for all the Talukas in the State during the year under report. The average yield of crops was annas two.

Wages.

41. The daily wages of the skilled and unskilled labourers through out the State ranged from annas 10 to Rs. 1-0-0 and 6 to 9 annas respectively. Appendix XVIII will show the prices of staple food-grains in the State.

Forests.

42. There is no forest in the State.

Trade and Manufactures.

43. There is one ginning and pressing mill at Miraj and three ginning factories at Laxmeshwar. The village Malgoam exports a considerable quantity of bittle-nut leaves. There is no other trade or manufacture worth the name in the State.

Work shop.

44. Miraj Work-shop has been making the same satisfactory progress as last year.

Public Works.

45. The expenditure of public works was Rs. 33,541-10-3 against Rs. 52,103-15-4 of the last year. Appendix XIX will supply further details regarding public works.

Post and Telegraph Offices.

46. There are in all 8 Post Offices in the State. Miraj Town has a Telegraph Office also.

General condition of the State and people.

47. The majority of the State subjects consists of the farmer class. There are no trades of manufactures worth the name in the State. The condition of the subjects therefore greatly depends upon the nature of each year's season. The out-turn of the crop was no doubt meagre. The farmer class however did not bring their grain to market but reserved the same for their own consumption. Those who could afford to bring it to the market got very high prices and consequently the condition of the farmer class was not as bad as that of the other classes. The merchant class was not too slow to benefit themselves by the high prices that prevailed in the market. They got good profits and their condition too was not bad. But the middle class people who had to purchase corn and other necessary things in the market and whose source of income was limitted suffered most this year.

The fodder condition was also keenly felt in these parts. The prices of fodder were and still are very high and consequently milk, butter and other nurishing food was very scarce.

CHAPTER V.

Revenue and Finance.

48. Appendix XXII compares the receipts and expenditure of the State for the years 1917-18 and 1918-19.

49. The gross revenue of the State for the year under report is Rs. 3,85,917-14-7 against Rs. 3,28,098-15-7 for the last year.

50. The following is an account of Local Funds for the year under report.

CHAPTER VI.

Dispensaries.

51. There are three Charitable Dispensaries in the State. The cost was Rs. 11,283-14-2 against Rs. 9,527-9-2 of the last year.

52. The total number of operations during the year was 589 against 669 of the last year.

53. Appendix XXIII shows the amount of medical relief afforded to the sick during the year in all the dispensaries.

54. Appendix XXIV shows the number of births and deaths during the year under report.

Plague and Influenza.

55. Some villages in the State suffered from plague. The number of attacks and deaths was 448 and 297 respectively. These figures show that the number of deaths due to plague has considerably gone down during this year and it is hoped the disease which has been constant source of anxiety, will completely vanish from the land after a few years. But perhaps to make amends for the failure of plague to work havoc among the populace another enemy even more dangerous influenza appeared in its stead. It carefully visited all the villages. Not only that but it may be said that not a single house-hold escaped from its clutches. It made its appearance in the month of June 1918 and raged with more or less virulence for about 7 months. The victims that it carried away during this short period number not less than 4,543. This is really an unusual rate of mortality. Medical help was given most liberally. Some of the old and new students of the local high school also came forward to assist the State as volunteers and did much useful work. Great credit is due to these young men for enthusiastic work that they did in the town of Miraj for about three weeks.

Vaccination.

56. The following table shows the work done by the Vaccination Department:—

Operation by whom performed.	Number of persons vaccinated in 1917-18.	Number of persons vaccinated in 1918-19.	Result.			
			Successful.		Unsuccessful.	
			1917-18.	1918-19.	1917-18.	1918-19.
Miraj Vaccinator	1,722	1,970	1,722	1,970	...	...
Laxmeshwar Vaccinator...	713	750	712	750	1	...
Modnimb Vaccinator...	336	314	336	314	...	...
Total...	2,771	3,034	2,770	3,034	1	...

57. The number of re-vaccination was 61 against 399 of the last year.

58. The expenditure incurred by the State for maintaining this department was Rs 1,227-0-9 against Rs 1,031-4-0 of the last year.

CHAPTER VII.

59. The inhabitants of Modnimb Taluka collected subscription among themselves which amounted to nearly Rs 18000 for the purpose of opening an Anglo Vernacular School at Modnimb which was to be maintained by the amount of interest that would accrue from the sum. The Chief was also pleased to reserve an equal amount of sum viz; Rs. 18000 whose interest was to go to the maintenance of the same institution. Thus the funds available for the school amounted to Rs. 36000. A school was consequently opened at Modnimb in the month of April last. It was named Shrimati Umabai School after the name of the deceased wife of the Chief. It was opened by the Chief himself on the 5th April.

Noumber of Schools and Scholars.

60. Appendix XXV will give the particulars regarding the management of the schools.

61. Besides the schools shown in Appendix XXV there were 8 unaided vernacular schools giving instruction to 250 pupils. Thus there were 50 schools providing instructions for 2733 against 50 schools providing instructions for 2759 pupils in the last year. 6 boys were sent up for the Vernaculr Final Examination this year, and all were successful. The percentage of pupils to population was therefore 3·4 against 3·4 of the last year.

The Miraj High School.

62. At the annual examination of the school 171 boys presented themselves for the examination of whom 94 passed under all heads. The percentage of passed to presented was 54·1. 6 boys were sent up for the Matriculation Examination of whom 5 were successful.

Drawing Classes.

63. The number attending the Drawing class was 156 against 151 of the last year. Three boys appeared for the Elementry Art Examination; of whom all passed. Seven boys appeared for the Intermediate Grade; of whom 6 passed.

Manual Training.

64. This was under the supervision of the State Overseer, and continued to do steady and useful work.

CHAPTER VIII.

Record.

65- A special Record Officer is appointed to arrange and classify the old records in a certain fixed form. This work is not yet finished.

66. There is a printing press at Miraj kept at State expenses. It is generally used for printing Official forms and other work required by the several departments of the State.

Printing Press.

67. The Native General Library at Miraj, was closed from 1-6-1918. The other two Talukas have their own libraries supported by the State grants and local subscriptions. There are also three reading rooms, two in the Miarj Taluka and one in the Laxmeshwar Taluka.

Library.

68. In conclusion, I am desired by the Chief to thank you and the Assistant Political Agent. S. M. C. for the kind advice given in the administration of the State from time to time.

I have the honour to be,

Sir,

Yor most obedient Servant.
